Want to get involved?

- Connect to community science initiatives:
  - **Michigan Bat Roost Monitoring Program**: requesting information about where and when bats are roosting across the state (https://mnfi.anr.msu.edu/programs/michigan-bat-roost-monitoring-program)
  - **Osprey Adopt-A-Nest Program**: volunteers monitor osprey nests to track the reproductive success of nesting pairs (https://mnfi.anr.msu.edu/programs/osprey-adopt-a-nest-program)
  - **Michigan Bumble Bee Atlas**: learn to collect valuable data on bumble bee species presence and habitat associations (https://mnfi.anr.msu.edu/programs/michigan-bumble-bee-atlas)
  - **Michigan Vernal Pool Patrol**: volunteers help find, document, and monitor these unique wetlands (https://vernal-pool-patrol-mnfi.hub.arcgis.com/)

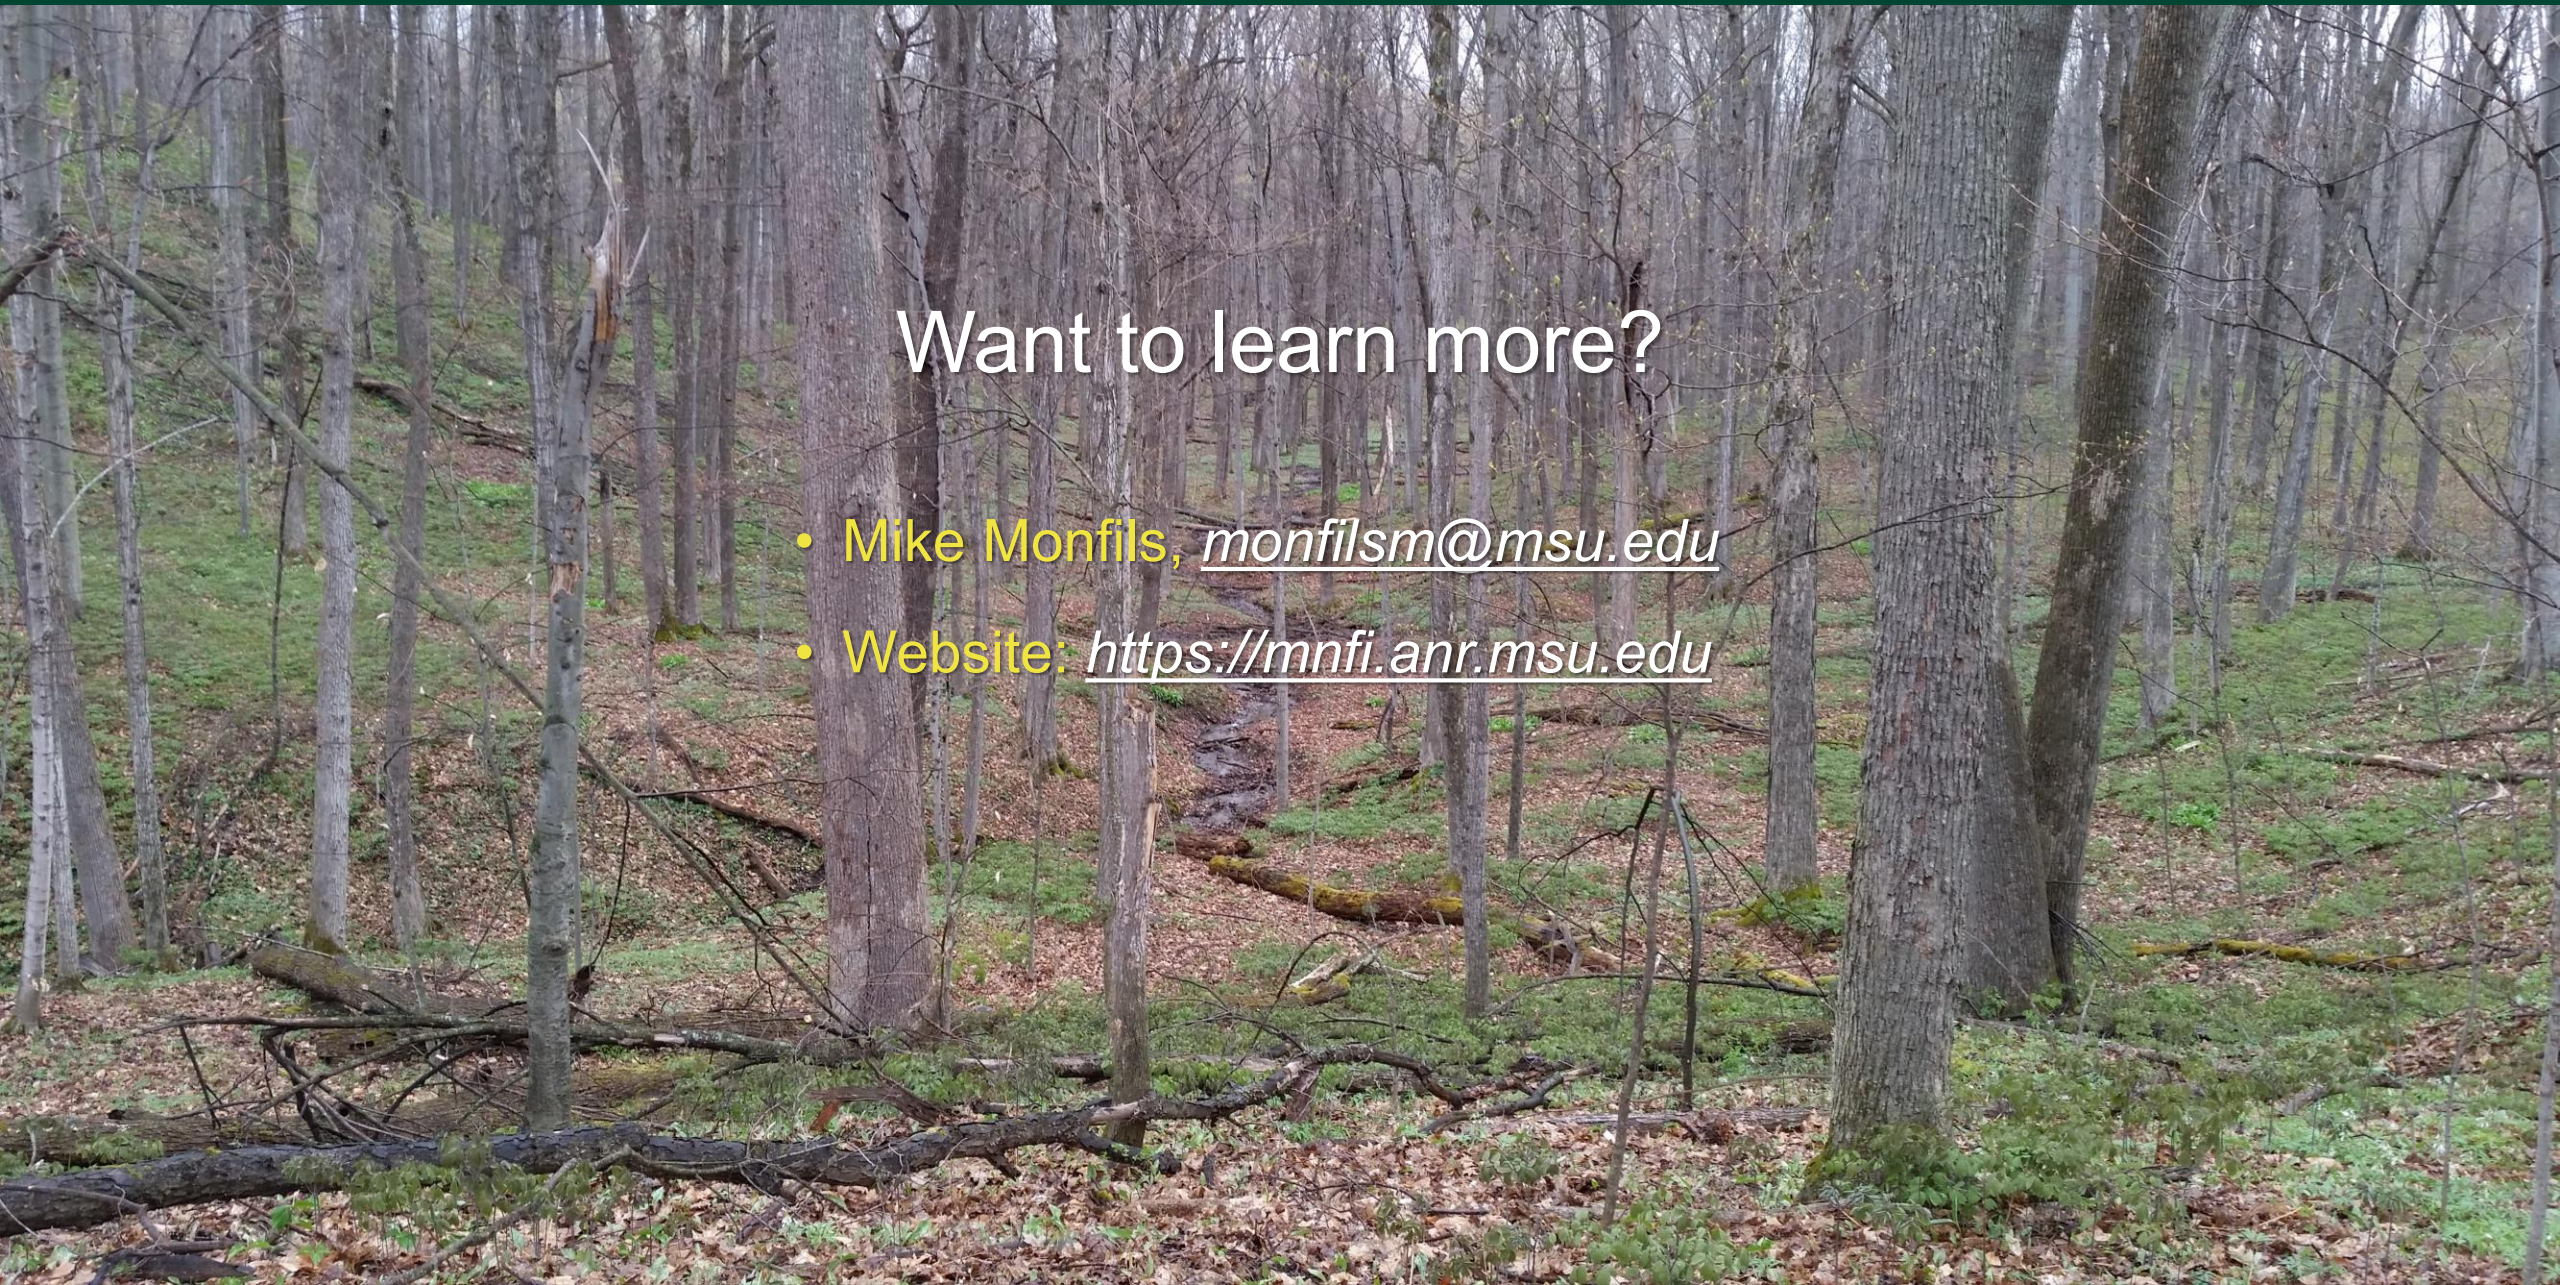

Want to get involved?

- Share your observations of rare species:
  - Scan the QR Code to view the form via web or Survey123 Application.
  - More information about reporting observations:
    - MNFI Website: (https://mnfi.anr.msu.edu/species/report)
    - StoryMap – Conserving Michigan's Biodiversity Together (https://storymaps.arcgis.com/stories/10cff7ddf03240c395fbb384a0ab76e9)

Want to get involved?

- Get involved with other Extension programs:
  - **Conservation Stewards Program**: 8-week program for those interested in learning science-based ecosystem management principles (https://www.canr.msu.edu/conservation_stewards_program/index)
  - **Michigan Naturalist Program**: 3-season program for those interested in gaining a greater understanding of Michigan's natural environment and ecological communities (https://www.canr.msu.edu/michigan-master-naturalist/index)
  - **Eyes on the Forest**: get trained as a volunteer to look for 3 emerging insect pests threatening our forests, Asian longhorned beetle, hemlock wooly adelgid, and spotted lanternfly (https://www.canr.msu.edu/eyes_on_the_forest/)
